

Context

□ Definition of Rational and Behavioral agents

- Rational agent = Practical Reasoning in Artificial Intelligence
 - Autonomous agents: ACT-R (Anderson) , SOAR (Laird) architectures
 - Multi-agents: BDI architectures (Bratman, Rao, Georgeff) are JAM, JESS, JACK, PSI, 2APL, JASON, ...
- Behavioral agent = *Computational* approach to Psychological phenomena
 - Multi-agents: CoJACK (Norling), 2APL (Dastani), eBDI (Jiang), ...
 - Believable agents: Cybercafe (Bates, Hayes-Roth and Rousseau)
 - ECA: SOAR-based (Gratch), PSI-based for FATIMA (Paiva, Lim), PRODIGY (Rizzo), ...

Actions, Plans, Decision-making

Emulation of human-like behavior

□ The R&B framework

- The relationships between the rational and psychological reasoning capacities of an agent are **intricate**:
 - Ellsworth, P.C., Scherer, K.R.: Appraisal processes in emotion. In Davidson, R.J., Scherer, K.R., Goldsmith, H.H., eds.: Handbook of affective sciences. Series in affective science. Oxford University Press, New York, NY, USA (2003) 572–595
 - Frijda, N.H.: The Laws of Emotion. Psychology Press (2006)
- We propose a computational framework dedicated to experimental studies about Rational and Behavioral (R&B) agents, with two main principles:
 - **Separation**: Rational heuristics and Behavioral heuristics are designed separately, then combined in the R&B simulator
 - **Genericity**: A common software layer supporting various R&B combining strategies

We need a grounding for behavioral heuristics

The description of a person

□ Sources in Psychology literature

- Lexical approach: **Adjectives/adverbs** (Baumgarten 1933, Allport and Odbert 1936)
 - “The lexical hypothesis states that most of socially relevant and salient personality characteristics have become encoded in the natural language”
 - Goldberg et al. Five Factor Model (OCEAN)
 - Costa and McCrae NEO PI-R facets for OCEAN
- Introspective approach: **Questionnaires**
 - Eysenck’s Personality Questionnaires (EPQ)
 - Cattell’s 16 PF

□ First-level taxonomy of adjectives

- Rational properties of a person (—social)
 - Physical, Mental: *bald, competent*
 - Intrinsic, Relative: *left-handed, pretty*
 - Static, Dynamic: *red-haired, breathless*
- Psychological properties of a person 
 - Intrinsic, interpersonal : *lazy, talkative*
 - Static, Dynamic: *ambitious, angry*

	Intrinsic	Interpersonal
Static	TRAITS	ROLES (psychological impact)
Dynamic	MOODS (Mind-states, Emotions)	AFFECTS (Mind-states, Emotions)

O.C.E.A.N. traits

NEO PI-R facets

Choice of OCEAN traits

- Most used since 2000
- Standard

Choice of NEO PI-R facets

- Most used since 1992
- Most refined: 30 facets
- OCEAN-based (6 facets by trait)

Table 1: Facets for the Big five trait domain: three approaches (alignment according to John et al judgment, based on (John et al., 2008))

OCEAN Classes	Lexical facets ($N = 18$) (Saucier & Ostendorf, 1999)	NEO-PI-R facets ($N = 30$) (Costa & McCrae, 1992)	CPI-Big five facets ($N = 16$) (Soto & John, 2008)
Extraversion	Sociability	-	-
	Assertiveness	Gregariousness	Gregariousness
	-	Activity	-
	Activity/Adventurousness	Excitement seeking	<i>(O Adventurousness)^a</i>
	-	-	Social confidence (vs Anxiety)
Agreeableness	Unrestraint <i>(A Warmth/Affection)^a</i>	Positive emotions Extraversion Warmth	-
	Warmth/Affection	<i>(E Warmth)^a</i>	-
	Modesty/Humility	Modesty	Modesty (vs Narcissism)
	-	Trust	Trust (vs Suspicion)
	-	Tender-Mindedness	Empathy/sympathy
Conscientiousness	Generosity	-	Altruism
	Gentleness	Compliance	-
	-	Straightforwardness	-
	Orderliness	Order	Orderliness
	Industriousness ^b	Achievement striving	-
Neuroticism	Reliability	Dutifulness	Industriousness ^b
	Decisiveness	-	-
	-	Self-discipline	Self-discipline
	<i>(O Perceptiveness)^a</i>	Competence	-
	-	Deliberation	-
Openness	Insecurity	Anxiety	Anxiety
	Emotionality	-	-
	Irritability	Angry hostility	Irritability
	-	Depression	Depression
	-	-	Rumination-compulsiveness <i>(E Social confidence (vs Anxiety))^a</i>
Openness	-	Self-consciousness	-
	-	Vulnerability	-
	-	Impulsiveness	-
	Intellect	Ideas	Intellectualism
	-	Aesthetics	Idealism
Openness	Imagination/creativity	Fantasy	-
	-	-	Adventurousness
	-	Actions	-
	-	Feelings	-
	-	Values	-
	Perceptiveness	-	-
	18	30	16

a. Facet names in italics correspond to a secondary attachment of an already existing facet.

b. Despite a same name in two classifications, Industriousness doesn't have exactly the same meaning, explaining that the two aren't aligned.

Motivation

□ Four main problems with state of the art resources

- **Genericity** OCEAN Traits are too generic for computational implementation. Facets refine OCEAN but are still too generic
- **Poles** Traits and Facets include both positive and negative (antonym) poles: *A-Modesty* can stand for adjectives like *mild* as well as *arrogant* (some authors propose pole-based taxonomies)
- **Semantics** Adjectives are considered to have a single lexical semantic meaning, often 'taken for granted' while in WordNet words have several senses: e.g. *friendly* (4), *kind* (3), *lively* (6), ...
- **Resources** Data are not easily accessible, old, partial, ...

□ Completing the standard OCEAN/NEO PI-R taxonomy using WordNet

- **Genericity** Use dictionary-based *glosses* instead of category names
- **Poles** Separate concepts from antonym(s)
- **Semantics** Use WordNet precise lexical semantics (*synsets*)
- **Resources** Build an *XML* resource freely available on the Internet

Methodology

Phase 1: Selection of a set of personality adjectives

- Selection of 11 sources of personality adjectives from the Internet
- Sort the Union of the adjectives according to their Saliency in the sources
- Discard adjectives non tractable with Wordnet
- Build from WordNet a base of unique triplets: Word-Synset-Gloss (WSG)
- Select WSG triplets actually describing the traits of a person (Double annotation)

Phase 2: Classification of WSG triplets in the OCEAN/NEO PI-R Taxonomy

- Build an annotating tool based on OCEAN/NEO PI-R
- Perform a double annotation process
- Statistical results: coverage of the OCEAN/NEO PI-R 2-levelled tree by the triplets
- Build an XML resource file, accessible freely on the Web

Phase 3: Elicitation of influence operators

- *For each OCEAN/NEO PI-R position elicit the behavioral schemes associated with the triplets*
- *Define the influence operators required to implement the schemes*
- *Classify the operators*
- *Implement the operator into the R&B framework*
- *Evaluate*

A corpus of 1000 personality adjectives

Table 2: Sources of personality adjectives for the corpus C_{coll}

N ^o	Sources	Count
1	http://personal.georgiasouthern.edu/~jbjoy/Adjectives.html	315
2	http://www.keepandshare.com/doc/view.php?u=12894	182
3	http://www.lingolex.com/personalidad.htm	52
4	http://www.lesn.appstate.edu/fryeem/RE4030/character_trait_descriptive_adje.htm	183
5	http://www.mckinnonsc.vic.edu.au/la/lote/german/materials/describe/pers-adj.htm#top	362
6 ^a	{ http://www.learnenglish.de/grammar/adjectivepersonality.htm#positive http://www.examples-help.org.uk/parts-of-speech/personality-adjectives.htm	277
7 ^b	http://www.esldesk.com/vocabulary/adjectives.htm	445
8	http://jobmob.co.il/blog/positive-personality-adjectives	130
9	http://www.nonstopenglish.com/exercise.asp?exid=440	20
10	http://www.scribd.com/doc/2212798/Adjective-List	80
Total		2046
Total of union (words different)		1055

a. List 6 is merged from two closely related sources.

b. List 7 is taken from a list of general adjectives, from which we selected those about persons.

$$C_{coll} = 1055 \quad C_{WN} = 1005$$

WordNet tractable = existing as adjectives in the WordNet base

The salience of personality adjectives

Figure 1: Histogram of salience of personality adjectives in the corpus \mathcal{C}_{WN}

Definition

w_a = Number of citations in the sources files $\in [1,11]$

Note: another useful salience factor would be the traditional word frequency over English texts (domain independent).

Table 3: Most salient \mathcal{C}_{WN} adjectives $Total = 55$. Alphabetical order is used when same w_a

w_a	Adjectives	Count
9	friendly, kind, lively	3
8	ambitious, calm, cheerful, clumsy, crazy, energetic, excited, funny, gentle, helpful, proud, quiet, silly, talented, warm	15
7	bad, brave, bright, courageous, generous, good, happy, lazy, nervous, sensitive, successful, tough	12
6	anxious, careless, charming, cooperative, determined, dull, eager, enthusiastic, exuberant, fair, faithful, fantastic, jealous, loyal, mature, nice, placid, pleasant, sad, shy, thoughtful, unusual, wise, wonderful, zany	25

WordNet Word-Synset-Gloss (WSG) triplets

Table 4: \mathcal{B}_{all} entries for adjectives from \mathcal{C}_{WN} ranked with $w_a = 9$

w_a	Adjective	No	Synset	Gloss
9	friendly		Pally	characteristic of or befitting a friend
9		*	Allied	of or belonging to your own country's forces or those of an ally
9		*	Easy	easy to understand or use
9			Favorable	inclined to help or support; not antagonistic or hostile
9	kind		Tolerant	tolerant and forgiving under provocation
9			Genial	agreeable, conducive to comfort
9			Openhearted	having or showing a tender and considerate and helpful nature; used especially of persons and their behavior
9	lively		Vital	full of spirit
9		*	Eventful	filled with events or activity
9			Frothy	full of life and energy
9		*	Springy	elastic; rebounds readily
9			Alert	quick and energetic
9			Racy	full of zest or vigor

Annotating WSG triplets into NEO PI-R facets

1 **characteristic of or befitting a friend**
{{Pally, friendly, 9}}
Modesty + .

FIND BACK NEXT

NEO-PI-R facet:

<i>Openness</i>	<i>Conscientiousness</i>	<i>Extraversion</i>	<i>Agreeableness</i>	<i>Neuroticism</i>	<i>Others</i>
Fantasy	Competence	Warmth	Trust	Anxiety	Physicality
Aesthetics	Orderliness	Gregariousness	Straightforwardness	Angry-Hostility	Capacity
Feelings	Dutifulness	Assertiveness	Altruism	Depression	Quality
Actions	Achievement-striving	Activity	Compliance	Self-consciousness	Role
Ideas	Self-discipline	Excitement-seeking	Modesty	Impulsiveness	State
Values	Deliberation	Positive-emotions	Tender-mindedness	Vulnerability	

Value in the facet:

+ tendency to play down own achievements and be humble
=
- tendency to be proud and arrogant
?
.

Meta-Infos: Judgement

Conclusion

The XML resource file

- Freely accessible and downloadable
- At the R&B project Web page →

Further work: Phase 3

- Scheme elicitation
- Influence operators definition
- Implementation in R&B
- Evaluation

<http://www.limsi.fr/~jps/research/rnb/rnb.htm>

Openness **OCEAN trait**

Fantasy **NEO PI-R facet**

+ **Pole**

not sensible about practical matters; idealistic and unrealistic
[romantic, WildEyed, 5] **G-W-S triplet**

having the ability to produce or originate
[productive, Generative, 4]

concerned with sacred matters or religion or the church
[religious, Spiritual, 4] [spiritual, Religious, 3]

promoting construction or creation
[creative, Constructive, 3]

having the ability or power to create
[creative, Originative, 3]

(used of persons or artifacts) marked by independence and creativity in thought or action
[imaginative, Imaginative, 3] [inventive, Inventive, 3]

concerned with or affecting the spirit or soul
[spiritual, Unearthly, 3]

showing great reverence for god
[godly, Worshipful, 2] [reverent, Worshipful, 2]

-

unimaginatively conventional
[conservative, ButtonDown, 3]

guided by practical experience and observation rather than theory
[practical, Hardheaded, 3] [hardheaded, Pragmatic, 2]

aware or expressing awareness of things as they really are
[realistic, Virtual, 3]

freed from illusion
[disillusioned, Disillusioned, 2]

sensible and practical
[earthy, DownToEarth, 2]

denying or questioning the tenets of especially a religion
[skeptical, Unbelieving, 2]

concerned with the world or worldly matters
[mundane, Terrestrial, 1]

deficient in originality or creativity; lacking powers of invention
[sterile, Uninspired, 1]
